GUM-DIPPING

Protects Tires from Heat and Wear

You Get More Mileage for the Money

Of course you get more mileage from a tire that is gum-dipped. This special Firestone process completely rubberizes every cord in the body of the tire, making it stronger and more elastic to stand up under the constant bending and flexing of the tire in service.

Gum-dipping also insulates the cords from heat and wear. This is a big advantage in summer driving, when tires usually heat up faster on long drives.

Look at the price we are quoting. At our store these better tires cost no more, yet they give you months of extra wear. Come in and try one.

Steam-Welded TUBES

The flexible walls of tough, elastic rubber, the splice and the valve base are welded in, live steam into a seamless, leakproof unit.

Cousins, for two years commander of Danville Post, No. 10, American Legion, is being discussed at State headquarters for the position of State adjutant. W. B. Crush, State adjutant, is understood to be willing to serve another year if he his re-appointed.

Hopewell.—The grand jury of the October term of the Corporation Court failed to indict members of the Lord Reading baseball club of Richmond and the Hopewell All-Stars, who were charged with playing ball on Sunday. The jury returned not a true bill. All members of both teams were listed on one indictment.

Winchester.—Several apple by-product industries here, valued at more than a million dollars, were measured by a fire that destroyed an evaporator plant in the center of the group. After a hard fight, however, firemen succeeded in confining the blaze to the evaporator. The loss was estimated at $25,000, partly covered by insurance.

Lynchburg.—The Lynchburg Traction and Light Company has announced that a film corporation will begin two weeks' work here this week, during which Lynchburg and its vicinity will be photographed from the air. A set of the pictures will be given to the Chamber of Commerce to be used at the Southern Industrial Exposition, in New York, next winter.

Richmond.—Rockingham county won first place at the State Fair in the county stock judging contest with teams made up of boys. Beef cattle and hogs of the various breeds were used and scoring was on the basis followed at the international live stock show. Hiram Avery, of the Augusta team, was the individual high man.

Warrenton.—Arthur Corum, charged with murder of Bud Finn, was found guilty by a jury in the Circuit Court here and sentenced to fifteen years in the State Penitentiary. The jury returned a verdict of second degree murder. Jesse Dove, under indictment in connection with the killing, will also be tried, Dove is charged with being an accessory. Finn was killed by a shot fired through the window of a house.

Lynchburg.—A. C. Dowdy, his wife, three children and nurse, of Lynchburg, returning from Bedford, in an automobile, rolled down a 100-foot embankment and escaped. The car turned over twice and landed on the wheels. The top of the car was torn off, the windshield smashed and hood dented, but the family was not injured, except for a small scratch sustained by Mr. Dowdy.

Lynchburg.—Captain Stephen R. Tiffany, regular army officer stationed here in charge of the reserve officers, has been elected commander of the Lynchburg Post, No. 16, American Legion. Other officers are: Vice-commander, H. L. Johnson; chaplain, Dr. John M. Robeson; finance officer, Otis Io Accorsini; historian, A. J. Davis; sergeant-at-arms, J. R. Pugh; service officer, Yi L. Gilfoyle; surgeon, Dr. A. L. Wilson. The selection of post adjutant was left to the executive committee.

Ashland.—A training school for colored people of Hanover county has been established by the Hanover County School Board and the State Board of Education through agencies cooperating with the State officials. The colored people themselves have raised $400 for the establishment of the training school at Ashland. It is the purpose of this school to train teachers for the schools.

Harrisonburg.—After December 1 Harrisonburg will harken back to the days of long ago. The curfew will ring then, as a result of the ordinance passed by the City Council. Children, under the age of 14 must be off the streets by 7.30 o'clock in the winter and by 9 o'clock in the summer. The chief of police will ring the bell each evening. Enactment of a curfew law was one of the pre-election pledges of Mayor Shaffer L. Davier.

Covington.—Thieves were discovered hauling away barrels of apples from the orchards of B. C. Moomaw, one of the largest fruit growers in this section, but too late to apprehend them. Mr. Moomaw followed them from his orchards to Covington, but lost track of them. All employes saw the truck enter the orchard but his suspicions were not aroused. He did not give the alarm until he saw the loaded truck speeding away. The finest select apples were taken.

Berryville.—The annual Teachers' Institute, presided over by Superintendent Leslie D. Kline, of the division of Frederick and Clarke counties, was attended by many teachers. The meetings were held in the new Berryville High School Building, which was inspected by school officials from West Virginia, Maryland and parts of Virginia. M. L. Combs, supervisor of high schools of the State Department of Education, and Rev. Robert Nelson, of Winchester, were among the speakers.

Fredericksburg.—A huge granite boulder, made from granite taken from the bed of the Rappahannock River, at a point where the new State highway spans the river at Falmouth, will on October 15 mark the exact spot of the beginning of Fredericksburg. The historic marker will be the gift of the Association for the Preservation of Virginia Antiquities. Included among Fredericksburg's historic treasures are the famous Rising Sun Tavern and the equally notable Mary Washington House, which were visited by 1,700 tourists the past summer.

Ashland.—More than 1,000 public school children of Hanover county have undergone the physical inspection required by the State under the West law. These inspections began September 1, under which taught here is that the heart unbroken and hard is not fit soil for the Gospel. Such a heart it penetrates not, but lies loosely upon the surface. It is only recognized as God's means for restoring them unto Himself. While in this condition the evil one finds some way to snatch away the truth. The fowls that devour the seed are symbolic of Satan (v. 4; 10). Hence why they attend Gospel services, they are not benefited.

II. The Stony Ground (vv. 5, 6; 16, 17).

This means not stones mixed with soil, but stones with a thin layer of soil on them. With such conditions a seed springs up quickly and likewise withers quickly, as it has not much depth. The great lesson in that hearts superficially impressed receive the Word with joy, but when affliction or persecution arises for the Word's sake, immediately they are offended. They wither away and die.

III. The Thorny Ground (vv. 7; 18, 19).

In this case the ground is good, but has thorns in it. It is mellow enough and has sufficient depth, but has not been cleaned of the thorns. Such really hear the Word, but "the cares of this world, and the deceitfulness of riches, and the lusts of other things entering in, choke the Word, and it becometh unfruitful" (v. 19). The thorny ground hearers of this age are those:

1. Who are so immersed in worldliness, business and anxious cares that the good seed cannot nurture.

2. Who are rich. Anxious care in business brings riches and the effect of riches is to blunt the spiritual perceptions of young and women, thereby rendering them unsusceptible to the call of God, to higher things in life.

3. Who are running after the pleasures of life. All these things choke the Word. Many of the amusements of the world may be innocent in themselves, but they attract so much attention and consume so much energy and time that one has not time for Bible reading, meditation and prayer.

IV. The Good Ground (vv. 8; 20). This ground differs from all the rest. It is soft and mellow, deep and moist; therefore, is capable of bringing forth fruit, some an hundred, some sixty and some thirty-fold, indicating different degrees of fruitfulness even of the good ground. In the measure that the heart is kept free from worldliness, riches and pleasure, the good seed matures.

Blaming Nature

You fall into the very common mistake of charging upon nature matters with which she has not the smallest connection, and for which she in no way responsible. Men talk of nature as an abstract thing, and lose sight of what is natural while they do so.—Dickens.

Opportunity; Responsibility

If God has written "opportunity" on one side of open doors, He writes "responsibility" on the other side.—T. T. Greer, D. D.

His Kingdom

The Lord uses all the forces of nature to establish His Kingdom.—Evangelical Teacher.

The Candle

The candle cannot shine unless it sacrifices.—Selected.

Sunday School Lesson

Lesson for October 19

THE PARABLE OF THE SOWER.

LESSON TEXT—Mark 4:1-20.
GOLDEN TEXT—The sower soweth the word.—Mark 4:14.
PRIMARY TOPIC—The Garden of the Heart.
JUNIOR TOPIC—Good Soil for Good Seed.
INTERMEDIATE AND SENIOR TOPIC—How to Receive and Use God's Word.
YOUNG PEOPLE AND ADULT TOPIC—How May I Improve the Soil of My Heart?

The method of teaching by parables was not employed by Jesus until the rulers had set their hearts against Him. When, in the light of His wonderful works, they turned against Him and attributed His works to the Devil (Mark 3:22) He denounced them in scathing terms and began to teach them by parables in fulfillment of Isaiah 6:10. The parabolic method of teaching makes clear the truth to those who love it and conceals it from those who dislike it.

A great multitude gathered to Him at the seaside (v. 1), so that, in order to escape the pressure of the crowd, He was obliged to enter a boat. From the boat as a pulpit He taught many things in parables. In the parable of the sower and the seed are the same in all instances, but the results are entirely different. The difference lies in the condition of the soil. The central purpose of a parable is to teach a truth by showing how to make or change the condition of the human heart.

I. The Wayside (vv. 4; 15).

The wayside means the track beaten down by the hoofs of animals and the feet of men. Because the soil was unbroken and uncultivated the seed could not get beneath the surface, therefore was devoured by the fowls that came along (v. 4). The great truth taught here is that the heart unbroken and hard is not fit soil for the Gospel. Such a heart it penetrates not, but lies loosely upon the surface. It is only recognized as God's means for restoring them unto Himself. While in this condition the evil one finds some way to snatch away the truth. The fowls that devour the seed are symbolic of Satan (v. 15). Hence why they attend Gospel services, they are not benefited. The great lesson in that hearts superficially impressed receive the Word with joy, but when affliction or persecution arises for the Word's sake, immediately they are offended. They wither away and die.

II. The Stony Ground (vv. 7; 18, 19).

In this case the ground is good, but has thorns in it. It is mellow enough and has sufficient depth, but has not been cleaned of the thorns. Such really hear the Word, but "the cares of this world, and the deceitfulness of riches, and the lusts of other things entering in, choke the Word, and it becometh unfruitful" (v. 19). The thorny ground hearers of this age are those:

1. Who are so immersed in worldliness, business and anxious cares that the good seed cannot nurture.

2. Who are rich. Anxious care in business brings riches and the effect of riches is to blunt the spiritual perceptions of young and women, thereby rendering them unsusceptible to the call of God, to higher things in life.

3. Who are running after the pleasures of life. All these things choke the Word. Many of the amusements of the world may be innocent in themselves, but they attract so much attention and consume so much energy and time that one has not time for Bible reading, meditation and prayer.

IV. The Good Ground (vv. 8; 20). This ground differs from all the rest. It is soft and mellow, deep and moist; therefore, is capable of bringing forth fruit, some an hundred, some sixty and some thirty-fold, indicating different degrees of fruitfulness even of the good ground. In the measure that the heart is kept free from worldliness, riches and pleasure, the good seed matures.

VERA

Favored by ideal weather, the Appomattox fair reached its climax Saturday night. A great many from this section attended and quite a number carried off prizes. The school exhibits were unusually good and Vera school won the first prize, Liberty Chapel school exhibit, unusual, much to the chagrin of its patrons, was conspicuous by its absence. The exhibit by the colored people was wonderful; and they deserve a great deal of credit.

Fox-hunting seems to be the prevailing sport at this season; several valuable dogs have been lost—Dr. Tune of Brookneal, lost two while hunting here last month; Mr. Woodsor of this neighborhood lost one and about two weeks later found it in an abandoned well—he rescued it from the well which was about 35 feet deep; but it was so near dead from starvation that it succumbed soon after its delivery. H. W. Kinney also lost a valuable "walker" hound, he still has hopes of finding it.

Mrs. Daisey Bell is the authorized representative of the Curtis Publishing Co., for this section and would be glad to have your subscription or renewal for either the "Saturday Evening Post", "Ladies Home Journal" or "Country Gentleman".

A Question

Scientific query: If nitrates can be taken out of the air, why cannot moisture be taken out of it to irrigate it?
